

Garfield Public Schools Home & School Consortium

IT TAKES A VILLAGE — AFRICAN PROVERB

Statistically, research has indicated that parental participation has been limited within Garfield schools. Lack of parental involvement may have a negative impact on student performance in and out of the classroom and ultimately affect their education and success. The Garfield Public School District has initiated an organization to bring together all Home & School Associations for the purpose of providing information to the community as a whole and to help unite the school district. It is our belief that educating children should take a concerted effort by all. By coming together, our schools and our students will find greater success. This will give parents an opportunity to have a greater voice in the education of every child. We are seeking your support by having you attend this meeting and strongly urge you to become active members of the HSA within your child's school.
